

Save to Buy a Liberty Bond, Because—

Save to buy a Liberty Bond, because—

We are whipping the Germans, and must continue to give the army in France everything needful to keep the soldiers fighting up to 100% efficiency, until the job is done thoroughly.

Save to buy a Liberty Bond, because—

We have got to make it safe for a man to live in the world in freedom and under conditions that make growth and joy possible. The Germans are trying to make a world enslaved to the Hohenzollern dynasty, and they look with longing to America as a reservoir of wealth that they wish to steal, and a great country they wish to subjugate to their ideas of barbarism. They must not!

Save to buy a Liberty Bond, because—

The golden era of the world lies just back of the German hordes. It will dawn as soon as they are driven off of their ill-gotten territories in other lands, and made to bow the knee to enlightenment and progressive policies for the world.

Save to buy a Liberty Bond, because—

You do not want to see your children brought under the heel of the barbaric German. You do not want to see your wife driven to do the bidding of the German brutes who do not know what true womanhood means. You do not yourself want to spend the rest of your days in slavery to the lords of Satan who are now ruling Germany.

Save to buy a Liberty Bond, because—

This is the great crisis in the world that is to decide whether it is the barbarism of the Germans or the liberalism of the Allies that is to rule the world after this war. That is the question; you must choose, in your action as to buying the fourth issue of Liberty Bonds, whether you stand for right, religion, progress, human rights—your own happiness and liberty—or whether you are willing to let Germany dominate the world, in the way the Germans are showing us they would dominate it.

Save to buy a Liberty Bond, because—

You must realize that all depends upon your action. If you do not save all you can, and buy all the Liberty Bonds you can, you will be helping them definitely and immensely. If you refrain from buy-

ing the last \$50 bond you can, through denying yourself every luxury, and as great a proportion of necessities as is possible, you are absolutely no better than a German.

Save to buy a Liberty Bond, because—

This is your Government, this is your war, these are your rights and privileges that the war is being fought to preserve for you—because it is your life that is at stake, and the lives of all you hold dear. Do not deceive yourself. Do not permit yourself, for one little moment, to indulge the awful error that the Government is something apart from your most precious things—from your very life, and your hopes as to the hereafter.

Save to buy a Liberty Bond, because—

You know that if we all do our part we are going to win the greatest victory the world has ever known. We think that that victory is even now beginning to flood our hearts with its promise. But as yet it is only a promise. To realize its substance we have got to fight yet a long time, a bitter time, an awful time.

Save to buy a Liberty Bond, because—

This country is now showing the world what liberty means, and must continue the great demonstration until the world is able to take liberty to itself and never let go of it again. We are showing the world how free men, wherever born, are able to fight—and win. We must give them the money to fight with.

Save to buy a Liberty Bond, because—

It is a profitable and wise thing to do. This is the least of the reasons for buying Liberty Bonds, but one of the more potent with a great many people; and they must not be criticised because of it. The impulse to take care of self and loved ones is one of the great forces that move the world.

Save to buy a Liberty Bond, because—

They are to be offered to us within the next few days, and we have none too much time to prepare to do credit to our intentions and our patriotism and our intelligence. Money has a way of getting away from us, now-a-days. From now until the fourth issue of the Liberty Loan is ready is none too long for us each to get a bundle together—and the bundle must be as large as it can possibly be made.
